premium

BY LUCIDE

Light transforms a house into a home.

It shapes atmosphere, creates comfort and brings every space to life. More than simply illuminating a room, thoughtful lighting influences how we feel, how we live and how we connect with the people around us.

With Premium by Lucide, we believe exceptional lighting is timeless. It complements architecture, elevates interiors and enriches everyday life with warmth, elegance and authenticity. Because true luxury is not only what you see.
It is what you feel.

We follow the light.

For 35 years, light has been our inspiration. What began as one family's vision has grown into an international lighting brand, driven by a simple belief: exceptional lighting should enrich the way people live.

From timeless classics to contemporary design, every Lucide collection is created with the same passion for quality, craftsmanship and innovation. We carefully balance aesthetics, functionality and atmosphere, because we believe lighting should do more than illuminate a room, it should elevate every moment within it.

Today, the second generation continues that journey with the same entrepreneurial spirit, embracing new technologies while staying true to the values on which Lucide was founded.

premiu
BY

Luxurious eyecatchers to illuminate your home.

Discover our premium range of lighting products, designed exclusively for those who seek the finest in quality and elegance. Each piece in our collection is crafted with care, blending innovative technology with timeless design to create truly exceptional lighting solutions.

From elegant pendants to sleek, modern fixtures, our lighting solutions are made to enhance any space with warmth and style. Whether you're looking to make a bold statement or prefer subtle, understated elegance, our premium range offers the perfect solution for those with taste.

Made from high-quality materials, these products are built to last, ensuring durability and lasting beauty. With features like adjustable brightness, rechargeability, adaptable lighting color, and customizable options, our lighting not only brightens your space but also reflects your unique style.

Available only through premium partners, Lucide's prestigious and exclusive selection allows you to set yourself apart and elevate your product line with lighting that exhibits luxury and sophistication.

LINIAL

Introducing our new track lighting concept Linial, a beautifully engineered system that blends effortlessly into modern interiors. Designed to complement any modern home, this elegant system offers intuitive smart control through a mobile app or voice assistant, giving you effortless command over your lighting environment.

With the smart control system, you can fine-tune brightness and colour temperature from anywhere, while the magnetic mounting system allows for quick, tool-free repositioning of fixtures.

The sleek, minimal look makes it a true design statement.

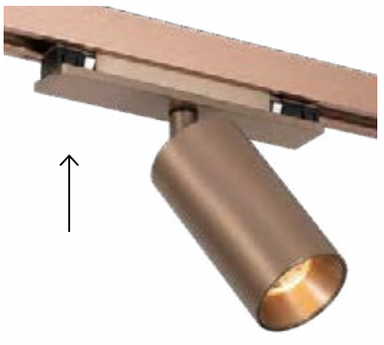

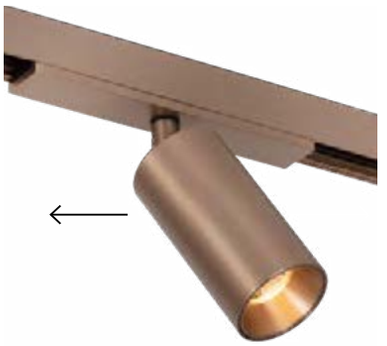

MIX & MATCH TO CREATE YOUR FAVOURITE SET-UP

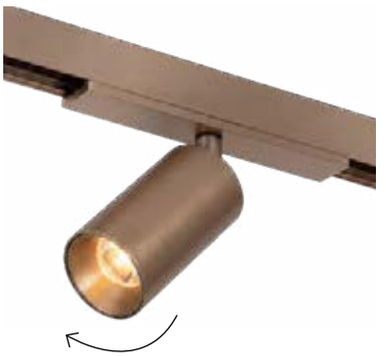

The LINIAL track system gives you maximum flexibility, allowing you to move, add, or reposition lights as your needs change. It creates a clean, modern look while providing targeted illumination exactly where you want it. With a wide choice of spots and pendants, you can easily customize both the atmosphere and functionality of every room. Just click the magnetic light fixtures in and you're good to go!

Design your perfect configuration

The LINIAL track system can be installed both as a surface-mounted or recessed solution.

As a surface-mounted system, the track is fixed directly onto the ceiling or wall, creating a clean and visible design feature, while the recessed version integrates seamlessly into the architecture for a more minimal look.

The system can also be installed as a pendant, in both surface-mounted and recessed configurations.

Adapt the lighting configuration to your requirements. The modular track system is suitable for ceiling-mounting, pendant-mounting, and wall-mounting. LINIAL runs on a 48V low-voltage system, combining electrical safety with flexible lighting design.

The Smart Gateway is the brain of the LINIAL Smart Track system, turning your entire lighting setup into one intelligent, fully connected experience. Every fixture on the track becomes individually controllable via the app, giving you total freedom to shape light exactly how you want it. With the app, you can easily dim the lights or adjust the colour temperature to match the moment. Create personalised light scenes, instantly adjust the atmosphere, or set up automatic lighting moments that follow your daily rhythm.

Make smart lighting effortless, intuitive, and truly tailored to your lifestyle.

Control at your fingertips

The LINIAL remote control is designed as a refined circular dial, it offers a tactile and natural way to engage with your lighting.

A simple press lets you select and target a specific group within your LINIAL setup. Once selected, a smooth turn of the dial allows you to adjust your lighting exactly the way you want it. You can dim the intensity or fine-tune the colour temperature from crisp and functional to warm and atmospheric.

Whether you prefer using the remote control or the app, controlling your lighting becomes a seamless part of your routine.

BIX

People who love elegance and style are guaranteed to fall for Griffith's charms. This sleekly designed pendant lamp made of high-quality aluminium not only has an eye-catching design, its versatility and ease of use are two more great assets. The tubular pendant lamp carries an integrated, dimmable LED bulb that you can easily operate via a touch sensor on the lamp. In addition, Griffith is adjustable in height for installation. This allows you to install the hanging lamp efficiently at the desired height. This product must not be connected to a wall switch and can only be operated using the controls on the product itself.
