WELCOME TO A NEW ERA!

The future has always been the most exciting place to look.
As LIGHT-POINT enters its 31st year, we are opening a new chapter defined not by reflection on the past, but by excitement for what lies ahead. We strongly believe that great design challenges itself. It moves forward. As we enter a new decade, we do so with the same curiosity and ambition that have always driven us.

The coming years will be defined by exploration. By new creativity, new aesthetics, and a renewed commitment to pushing the boundaries of contemporary lighting. We see this as an opportunity to rethink, refine, and reinvent our creative universe while staying true to the principles that define us: simplicity, innovation, and quality.

We believe the future demands more than refinement. It calls for courage and experimentation. New materials, new forms, new technologies, and new expressions will shape the way we design and the way light is experienced in architecture and everyday life.

This catalogue marks the beginning of that era. With the introduction of VELVET and TWIST, we present two collections that represent more than new designs. They signal a new beginning for LIGHT-POINT – a more sensual and decorative approach to lighting design. Each collection reflects our desire to explore and embrace new ideas and create products that inspire the spaces of tomorrow.

While much has changed over the years, one thing remains constant: our belief that curiosity is the driving force behind progress. It encourages us to challenge conventions, and continuously raise the bar for ourselves. The years ahead will be about creating lighting that is not only functional, but emotionally engaging and architecturally meaningful. We are looking forward with high expectations for what LIGHT-POINT can become in the years to come.

The next decade begins now. For us, it feels full of possibilities. This is only the beginning. And this is more than a new catalogue. It is the first step into the future.

AURA C3 / Rose Gold

AURA
Collection

AURA is an award-winning collection based on LIGHT-POINT's characteristic design style with its clean, calm lines. At the same time, round curves lend AURA an aesthetic softness. The collection consists of ceiling and wall lights. AURA Ceiling is available with two and three light sources that can rotate on their own axis, making them super flexible. AURA Wall is available in four lengths. W3 and W4 are particularly suitable for hanging above a bathroom mirror.

BLADE
Collection

BLADE is based on precision, geometry and clean lines. Comprising two cylinders connected by a moveable, linear core, its integrated yet hidden functionalities play an important role. All hinges and cables are integrated into the design and so are invisible. Every element has been stripped down to its essential function and is there for a reason.

When you tilt the arm and rotate the shade, BLADE casts a beautiful light, regardless of where it's positioned. It's a timeless collection that celebrates the high quality of its material, emphasised by its slender, elegant silhouette. With its pure design and sleek form, it's sure to add style to any room.

The collection encompasses table, floor, pendant and wall lights. All lamps come with LEDs as well as an optical glass providing a wide, glare-free light, and are ideally suited for both the residential and hospitality sectors.

BLADE collection is the result of the exclusive collaboration between LIGHT-POINT and the internationally recognized premium design consultancy, Studio F. A. Porsche. BLADE won the prestigious iF DESIGN AWARD, 2023.

LIGHT-POINT | DESIGN BY STUDIO F. A. PORSCHE

In 2018, LIGHT-POINT devised a global growth strategy centred on the Premium Design to position the brand in a class of its own. In the last four years, LIGHT-POINT has grown significantly and its collections, developed by its in-house design team, have garnered many international accolades.
In 2021, LIGHT-POINT became a member of an exclusive group of companies to partner with the internationally recognised premium design consultancy, Studio F. A. Porsche. The strategic vision of this partnership is to enhance the premium design quality of LIGHT-POINT's product collection.
For the first two design collections, BLADE and INLAY, Studio F. A. Porsche dreamt up an innovative yet contemporary lighting collection that expresses its design DNA.

TIMELESS, BOLD & SCULPTURAL

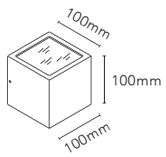

CUBE is an outdoor lamp that is both classic and innovative at the same time. Its sharp, stringent design is entirely minimalist and understated, yet the lamp makes a design statement with sculptural qualities.

CUBE is available in black and a new rust version. The rust surface ads a more rustic and industrial look without being dominant. The reddish-brown hue is perfect for adding warmth to walls and facades, blending seamlessly into natural surroundings.

LIKE DROPS DRIPPING FROM THE CEILING!

DROP is an elegant, slim ceiling pendant that can hang alone or in clusters – your imagination is the limit. You can create a big, spectacular installation in a space like a hall, or hang a smaller number in a row above a table.

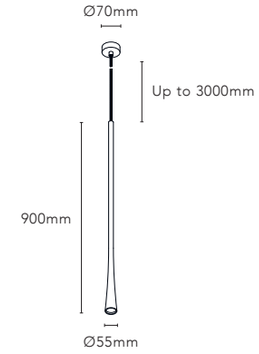

DROP offers pleasant illumination, with small light sources that are deep enough to avoid glare. DROP is available in two lengths.

THE SHAPE OF LIGHT

The award-winning EDGE family, designed by Nital Patel, is a new classic LIGHT-POINT design created for spaces where both lighting quality and design presence are essential – from residential interiors to hospitality and professional environments.

You instantly recognize the elegant silhouette that defines the collection of linear and round pendants. The widest part of the sharp edge provides maximum light to the area below, while the narrowest part casts ambient light upward, delivering both direct and indirect illumination for superior lighting.

The EDGE family is equipped with either Smart Tune, which allows you to control the lamp with your smartphone, or Switch Tune, which lets you choose the color temperature (2700K or 3000K) during installation.

ALL EDGE LAMPS NOW FEATURE SWITCH TUNE

EDGE is an award-winning collection of linear and circular pendants where sculptural form meets advanced lighting technology. Every detail is guided by a single principle: to achieve the highest possible light quality through inseparable form and function.

All EDGE models are now available with Switch Tune, allowing selection of colour temperature at installation. 2700K delivers a warm, atmospheric glow reminiscent of traditional incandescent light, while 3000K offers a cleaner warm white with improved colour rendering and functional clarity.

EDGE SWITCH TUNE features a compact celing base and an additional bracket for total installation flexibility. Route the cables freely across the ceiling to create a custom suspension that perfectly fits your space.

PRECISION AND FLEXIBILITY

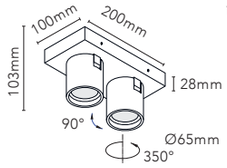

A round spotlight in a square base. FOCUS is a ceiling spotlight that can rotate 350 degrees, ensuring maximum flexibility and focused light.

It's perfect for highlighting artwork, but it also works really well as ceiling lighting if you want to emphasise something special in your interior design. FOCUS can also be directed vertically into the floor to create exciting effects in a room.

SWITCH TUNE™

INLAY
Collection

INLAY is a design based on one core principle – a straight line – which is its very essence. The collection is supremely minimalist yet highlights the contrasts between similar materials – Matt Black Aluminium combined with Satin Gold or Matt Silver Aluminium.

INLAY is a masterstroke in precision, its design language defined by the interplay between its materials – the result of many hours spent refining it down to every detail.

INLAY is a stylish design with a clean, architectural form, free of superfluous elements. Its linear form casts an even light along the entire length of the lamp, which incorporates Wa touch or a touchless sensor to switch it on or off, and dim the light.

The INLAY collection comprises floor, table, wall and pendant lights. All pendants feature a built-in SMART TUNE solution, allowing you to switch the light on and off and control its colour temperature and brightness, all via the Casambi app.

INLAY collection is the result of the exclusive collaboration between LIGHT-POINT and the internationally recognized premium design consultancy, Studio F. A. Porsche. INLAY won the prestigious RedDot Award, 2023.

ONE FINE LINE

"The INLAY concept is a bold statement – it deals with the absence of design at first glance. It's a remarkable example of the emphasis placed on detail and workmanship. Mastering this fine line has taken courage and been a huge challenge" – Christian Schwamkrug, former Design Director at Studio F. A. Porsche.

INLAY collection won the prestigious RedDot Award, 2023.

LINEA
Collection

A wall lamp with an edge! LINEA is a new rectangular wall lamp defined by a sharp geometric language. A long and narrow up-down light - thoughtfully designed, inside and out. With its timeless, minimalist expression, LINEA fits seamlessly into LIGHT-POINT's design universe echoing the iconic CUBE lamp with its sculptural, cubist form.

LINEA, however, is lighter and more refined in its details, shaped like a brick. It's the perfect all-round lamp, ideal for both indoor and outdoor use. It works beautifully in a wide range of settings, whether installed alone or in a series. Think hallways, kitchens between upper and lower cabinets, or bathrooms where it provides excellent mirror lighting. It's equally suited to exterior façades, where it becomes an architectural lighting feature.

With LINEA, you can create design continuity - a visual link between indoor and outdoor spaces. The lamp is designed to optimize light output, casting a direct and symmetrical beam upward and downward, with no reflections. Thanks to its matte diffuser, the light remains soft and glare-free.

MIRAGE OUTDOOR STAND / Black

MIRAGE
Collection

MIRAGE OUTDOOR STAND resembles a beautiful sculpture, a decoration placed on the ground. While reminiscent of a traditional lantern, it boasts a contemporary and ultra-minimalist look with a concealed LED light source integrated into the top. Like a small pavilion resting on four pillars, it casts light in four directions. This tall and slim outdoor lamp has a refined finish, and, as the name suggests, it carries the same design language as LIGHT-POINT's popular MIRAGE lamp. But is it a circle or a square? It's both - a "squircle." Depending on the angle you look at it from, the shape shifts and transforms its expression.

MIRAGE OUTDOOR STAND can guide you along a driveway or through a garden path, but it's more than just functional lighting. It's a design statement and a visual experience each time you return home or look out at your outdoor space. The lamp creates clarity, contrast, and spatial definition. It shapes atmosphere and visual narratives, making it ideal for transforming outdoor areas.

MIRAGE OUTDOOR STAND is striking on its own, but it truly comes to life when arranged with multiple lamps to form a dynamic lighting landscape, elevating both the lamp and its surroundings to a new level. This version includes Switch Tune technology, allowing you to choose between two light temperatures.

LIGHT-POINT.COM

ORBIT W1 / Rose Gold

ORBIT
Collection

An elegant and exclusive collection of indoor and outdoor lights, allowing you to create visual continuity and harmony across your indoor and outdoor spaces. ORBIT is the perfect all-around lamp: simple, reliable, and robust, yet light, sculptural, and sophisticated. The lamp casts its light further, wider and softer. The optical glass lens provides glare-free light that won't bother your eyes while still providing the light you need.

For interior use, you can choose from a wall lamp and a floor lamp. ORBIT WALL is an up-down lamp, suitable for corridors or above the kitchen counter. It comes in several sizes. ORBIT FLOOR can be controlled using a touchless sensor, making it easy to switch on and off and adjust the brightness. The floor lamp can also be adjusted in height, and the two spotlights can be controlled individually, so you can customise your lighting experience.

VISUAL CONTINUITY FOR BOTH INDOOR AND OUTDOOR

ORBIT WALL and ORBIT GARDEN are ideal for outdoor spaces, where they create both exciting and calm light, whether on facades or standing on the ground. With its up-down light, ORBIT WALL provides beautiful shadows on walls along the entrance or on the terrace. Available in black and white.

ORBIT GARDEN is a floor lamp that can accompany you from your driveway to your door, as well as in the garden, where it works well in flower beds. This model is only available in black.

LIGHT-POINT.COM

RØRHAT STAND / Black

RØRHAT
Collection

RØRHAT is a true Danish design icon! It has a semicircular shape – a timeless classic. Designed by Jesper Juhl Pedersen in 1989, this lamp is still produced in Denmark from the finest materials. The originality, simple lines, high quality, and affordable price point of the RØRHAT make it a popular lamp. Beautiful on a carport or garage, or on a wall, like for instance next to the front door. It is also available as a bollard, with light in one or two directions.

The RØRHAT range includes a selection of mounting hardware and nameplates, so you can personalise your RØRHAT lamp. The lamp can even withstand harsh wind and weather, but it is also suitable for indoor use. The lamp is available in a variety of finishes: classic black or white, polished chrome, galvanised, rust, and stainless steel. It is also available in raw or polished copper and polished brass for indoor use only. A super functional lamp: 100% Danish design and 100% value for money.

SLIM S1800 / Rose Gold

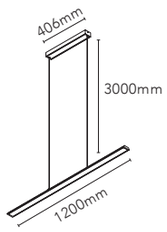

SUBTLE SOPHISTICATION

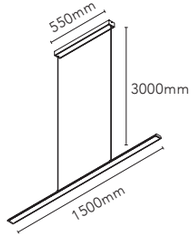

Like a line in the air. A study in style. SLIM is an elegant and efficient light source that's ideal to place above dining or meeting tables. Hanging like a trapeze on two thin fabric cables and equipped with a discreet bracket, it effectively casts a soft, warm, and diffuse light over its surroundings.

The SLIM pendant doesn't obstruct your view or get in the way, even from above. It hangs like a design statement and blends into any environment. Available in three lengths.

SOHO
Collection

Like luminous art on the wall! SOHO is a wall-mounted system of circles/discs that you can freely place on the wall in all kinds of creative formations. You can mix and match colours and sizes to create a personal and artistic expression in your indoor and outdoor spaces.
SOHO is ideal as a mood-setter and eye-catcher in the home, as well as in offices, hotels, restaurants, lobbies, showrooms, and shops. SOHO can also be used outdoors. Available in five sizes, all with varying depths to create overlapping patterns on a wall.

Winner of the Red Dot Design Award.

SPIRIT
Collection

SPIRIT is an ultra-modern lamp for anyone who's looking for something special. It has a raw, urban, and industrial look. SPIRIT has a distinctive, three-dimensional look with one or more tube-shaped light sources that are attached to the pole with a magnet, so they can be moved freely as needed. This makes SPIRIT a super functional and flexible lamp. Available as a pendant, floor, and table lamp. The latter two models are equipped with an innovative on/off switch with a built-in dimmer function, allowing you to easily and elegantly adjust the brightness by simply holding your finger on the button.

STRIPE
Collection

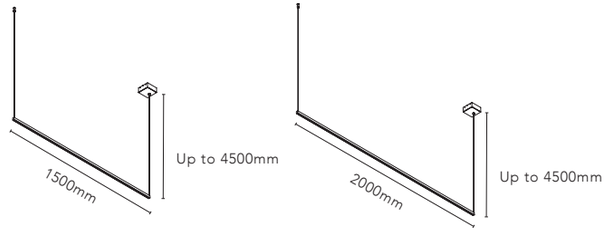

CONTEMPORARY MINIMALISM

An emblem of modern style! Play with the effects of light with STRIPE: A collection of two pendant lights and two wall lights with a strict, architectural, and sophisticated expression. It's a very contemporary lighting object that lets you create exciting scenes and imaginative landscapes of light in your home. STRIPE is the epitome of minimalist design. Everything superfluous has been cut out, making it graphic and sculptural above a kitchen table, dining table, or desk, on a wall, or on the ceiling. STRIPE is a gallery piece – it's a work of art, so simple, and yet capable of transforming your entire interior.

TWIST
Collection

TWIST W1 / Rose Gold

A NEW WALL LIGHT FOR EVERY ROOM

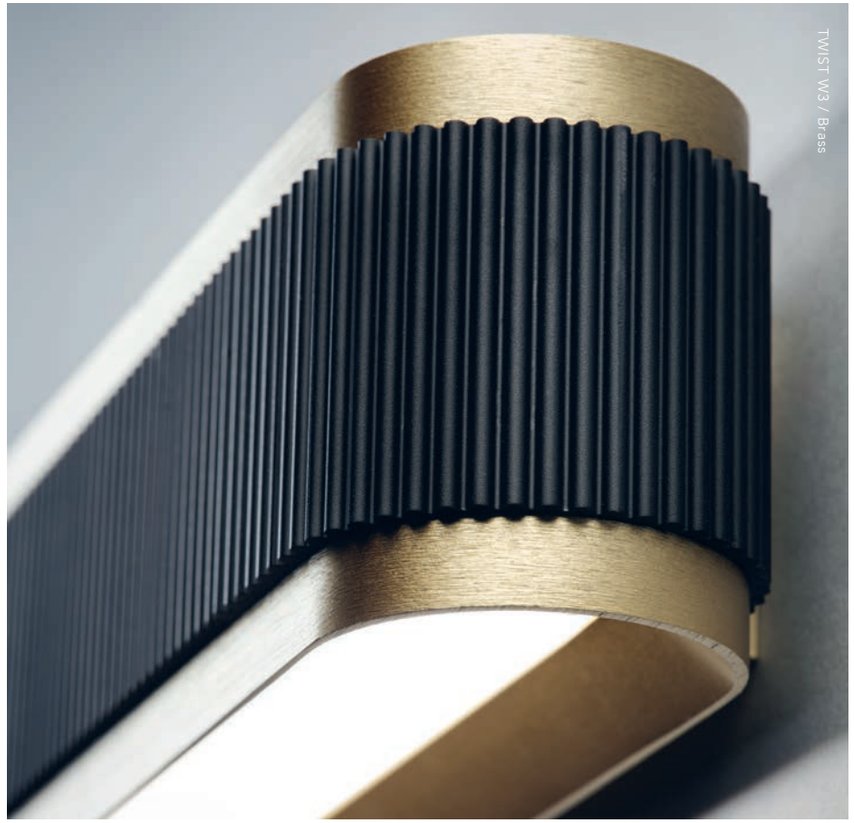

TWIST is a versatile wall light that balances modern simplicity with timeless elegance. Its soft, rounded and curved silhouette is contrasted by a distinctive architectural detail: a black powder-coated band of finely structured aluminium lamels that wraps around the smooth body.
Sculptural yet understated, TWIST becomes more than a light source – it becomes a spatial element with an industrial edge refined through contemporary design.
Available in five finishes – Black, White, Brass, Rose Gold and Titanium – TWIST offers two distinct expressions. Metallic versions emphasize contrast, shadow and depth, while the monochrome Black edition delivers a calm, unified and highly refined look. In all versions, the interplay between surfaces creates a subtle three-dimensional presence.
TWIST integrates naturally into any interior without disappearing. It brings character to kitchens, living rooms, hallways, bedrooms and bathrooms – wherever soft up- and downlight is needed to create atmosphere and balance.

TWIST W2 / Rose Gold

TWIST W3 / Brass

TWIST
Collection

TWIST W3 / Brass

ART DECO, REIMAGINED FOR TODAY

TWIST combines contemporary minimalism with a timeless elegance inspired by Art Deco references. It reinterprets the 1920's spirit not as reference, but as resonance.
More than a functional light, it's designed to shape mood and enhance architectural space. The balanced up-and-down illumination creates a calm, ambient glow and a soft light pattern across the wall, making it ideal above mirrors or as ambient lighting in both private and hospitality environments.
Use it alone as a sculptural statement or in linear compositions to create rhythm and continuity. TWIST is equally suited for residnetial living and large-scale hotel or restaurant projects.

TWIST W1 / Titanium
EDGE S2000 / Carbon Black

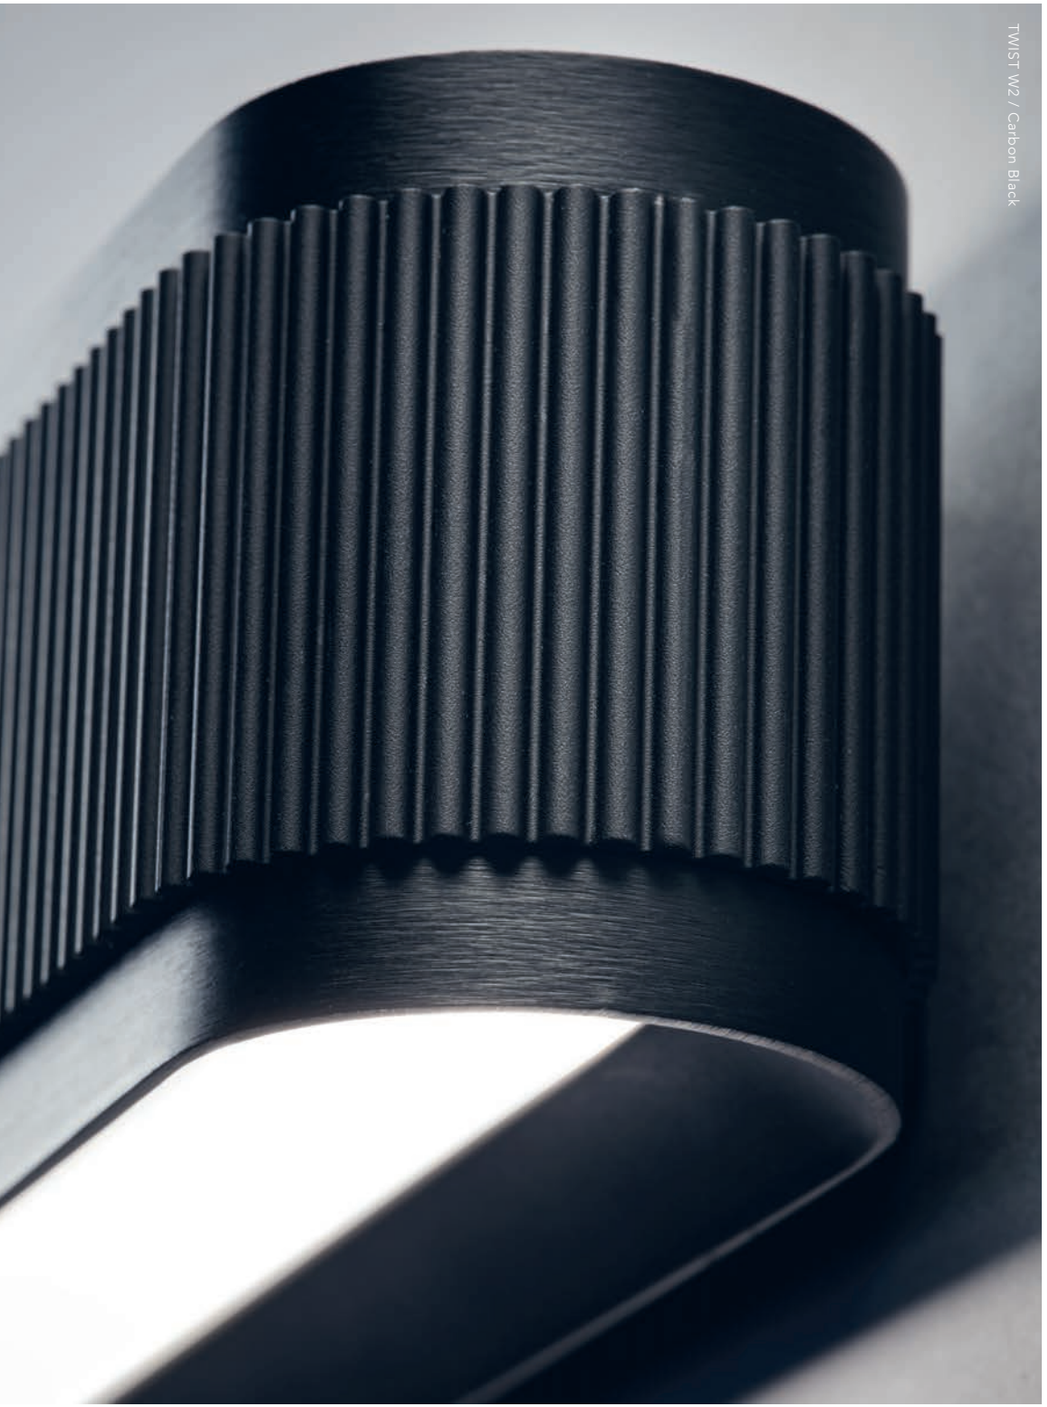

TWIST
Collection

STRUCTURE, SOFTENED

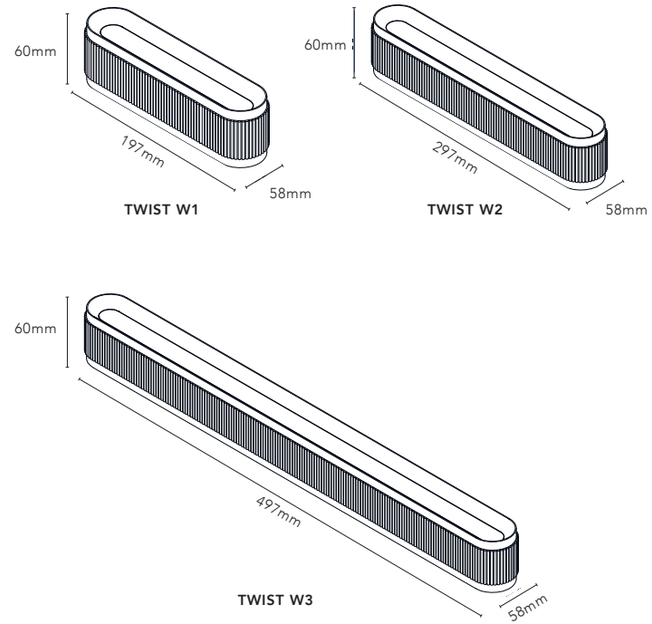

TWIST is a study in controlled contrast. The smooth aluminium body meets a structured black band of fine lamels, creating a dialogue between precision and softness. Light is projected both upward and downward, forming a gentle arc that brings depth and warmth to any space – from kitchens and hallways to bedrooms and bathrooms. Contemporary in expression. Timeless in form.
Available in three sizes and five finishes, each version is defined by its signature architectural band. Switch Tune allows selection between 2700K and 3000K at installation, ensuring the perfect light for any setting.

MAXIMUM LIGHT VERSATILITY

VANTAGE is a state-of-the-art award-winning LED spot lamp that works optically, spreading light further, wider and softer. Replacing traditional reflectors with an optic glass provides glare free light, eliminating annoyance to the eyes. The collection is made up of four sizes and five colours; in a structured powder coated black and white and in a brushed rose gold, titanium and our new colour brass. Each lamp is made from CNC machined high quality aluminium which is the best choice of material for absorbing heat created by the LED.

VELVET S1400 / Titanium + Brass

VELVET
Collection

VELVET S1 + S2 / Titanium + Brass

LIGHT AS ARCHITECTURE IN ITS MOST SENSORIAL FORM

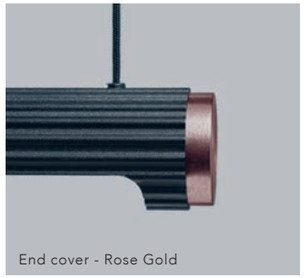

At LIGHT-POINT, we see lighting as more than an object – we see it as an integral part of architecture. Each lamp is developed with a strong focus on proportions, materials, and the quality of light – and on how it blends into a space.
The VELVET Collection includes a pendant and wall lamp with a perfectly balanced cylindrical form featuring fine grooves that refine its strong, clean expression. The tactile surface carries a textile-like softness, giving it a sensual and almost fabric-like expression. There's something subtly seductive about the material, with its velvety texture. VELVET carries a sense of decadence – an aesthetic that leans toward a bygone era and slowly unfolds, wrapping the room in subdued light. It's a light that moves, gently unfolds, almost gliding through the space, creating a choreography of shadows and reflections.
It's precisely in this texture, this velvet-like pattern, that the design finds its strength. The materiality is deep and saturated. There is a quiet pulse, an interplay, between the visible and the hidden – between what is seen and what is felt – that softens contours, dissolves edges, and blurs contrasts.
VELVET is available as horizontal pendants (140/180 cm), vertical pendants (40/60 cm), and wall light (40 cm). Finishes: Matte Black, Brass, Rose Gold, Titanium.

VELVET W1 / Brass + Black

BOTH CLASSIC AND AVANT-GARDE

VELVET exists as both pendant and wall light, combining sculptural form with beautiful detailing. It explores the relationship between light, material and space, demonstrating how lighting can transform an atmosphere. Designed with clarity and intention, VELVET integrates seamlessly into modern architecture and contemporary interiors – present, yet never intrusive.
This wall version features a discreet integrated switch, allowing you to easily toggle between colour temperatures of 2700K and 3000K (when turned off).

ZERO W / Rose Gold

ZERO
Collection

No-nonsense design. ZERO is a family of elegant, cylindrical pendant and wall lights. These lamps are streamlined and minimalistic, spreading a soft, comfortable, and glare-free light. The pendant can hang alone or in a group of several. The wall lights illuminate both upwards and downwards and can be used in all rooms, including bathrooms and outdoor spaces (in black and white).

General terms of sale and delivery

The following terms and conditions cover all deliveries and services from LIGHT-POINT A/S, unless other terms have been agreed upon in writing.

Tender
A tender is binding for three weeks from the date of the tender.

Dispatch/return of goods
Delivery will be EXW LIGHT-POINT A/S' warehouse (Incoterms 2000) unless other terms have been explicitly agreed upon. When buying any of LIGHT-POINT A/S' goods for resale buyer shall defray all freight charges himself.
Dispatch will take place at buyers' own account and risk. When delivery has been agreed to be free of carriage the cost of dispatch is included in the price and the dispatch will be at the risk of LIGHT-POINT A/S. Buyer is only entitled to annul the order due to delay provided delivery is delayed for more than 30 days.
Returned goods will only be received when prior agreement of return has been reached and then only in the original wrapping and in an undamaged state. A copy of the delivery note or the invoice must accompany the returned goods. Erroneous orders for standard goods will be deducted 20% for handling and control. Special goods, procured goods and unwrapped light sources will not be accepted for return.

Prices
All prices are current prices exclusive VAT, government taxes and light sources unless otherwise stated. All prices are stated without prejudice to printing errors, price changes and discontinued goods.

Payment
Unless otherwise stated in LIGHT-POINT A/S' tender or other written agreement our terms of payment are net cash at delivery/collection. At delay in payment a fee of DKK 100.00 and interest of 2% per commencing month will be added.

Notification of defects
Buyer is obligated to examine the goods immediately after receiving them. Notification of defects must be given to LIGHT-POINT A/S within 8 days of delivery. If buyer does not notify LIGHT-POINT A/S of defects within this time-limit he will not be able to cite any defects at a later date. Expenses incurred by buyer in connection with cited defects are not covered by LIGHT-POINT A/S unless LIGHT-POINT A/S has received the notification of defects and has given a written acceptance to cover the costs.

Warranty
Products which have a manufacturing fault or a flaw in the material will be repaired without cost or exchanged in accordance with the rules in the Danish Sale of Goods Act and to the same extent that the warranty from sub suppliers covers. Light sources are not covered by warranty.

Scan the QR-code and read more about our 7 years warranty.

Exemption of liability
Non-fulfilment including delay or delivery of defective goods will only justify buyer compensation provided buyer documents that the non-fulfilment is caused by gross negligence on the part of LIGHT-POINT A/S. However LIGHT-POINT A/S is in no case responsible for operating loss, loss of time, loss of profits or other like indirect losses including daily fines inflicted on buyer.

Product liability
The company is only responsible for product liability in accordance to the rules in the Danish Product Liability Act. Beyond this the company is not responsible for product liability.

Disputes
Disagreements in connection with the cooperation of the parties with reference to this agreement must be solved according to Danish law, in as much as the parties agree that the venue shall be the Maritime and Commercial High Court in Copenhagen or alternatively the City Court of Copenhagen.

Copenhagen, 1st of September 2024.
